Key Features

- Touch less system
- Wheelchair accessible
- Sustainable
- Eco friendly
- Easy clean
- Can be mains or standalone operated
- Cost effective
- Anti bacterial gel coat
- Indoors or outdoors option
- Colour customisation
- Advertisement placement
- Does not use expensive hand sanitiser gel
- Dimensions - **L**-160cm, **W**-60cm, **H**-225cm

Benefits

- Centralised sink for easy access to the soap and paper towels
- Programmable sensor tap so run time and sensor range can be adjusted
- Flow rate can be adjusted to suit a more eco-friendly or user luxury station
- Water filter provides clean water that is easily maintained with a screw able top.
- Designed ceiling ensures water runoff is not over the entrance and exit of the pod
- Molded out of GRP (glass reinforced plastic), with anti bacterial gel coat
- Bulk refill soap dispenser, economical and flexible option along with large hand towel dispenser
- Having the bin under the towel dispenser reduces mess and keeps the station vandal proof.
- We have chosen our sink and dispenser heights to comply with wheelchair regulation.
- Water tanks are easily distinguished by colour when filling and emptying (optional)
- Angled sink keeps the station easily cleaned but also reduces splash.
- Water tanks on dollies for easy transport (optional)
- Self-priming diaphragm pump requires no setup
